Gender

Human Characters

In Redemption®, most humans are either male or female. Usually the picture makes it obvious which a character is, but sometimes it is difficult to tell (sometimes there are a male

and a female in the picture, and you don't know to which the name refers). In this case, use the Scripture verse as the guide.

Non-Human Characters

These characters are also treated as having a gender. This is determined using the following:

- Card Title/Verse text: If the title or verse refers to a character with words such as 'he' or 'his' or 'Prince', etc., then the character is to be treated as male.
- Card Art: If the character appears to be male, it is treated as male. If the character appears to be female, it is treated as female

Dual-Gender Characters

Sometimes a card will represent exactly two characters having different genders based on the scripture or art, thus it is treated as both male and female. The following Redemption® cards are both male and female:
